

I found it appalling recently when I read in the local newspaper that Sinclair Broadcast Group was demanding that it's stations broadcast an anti-Kerry program just before the national election. It is a flagrant abuse of power of a media corporation to take steps to influence the outcome of an election. It is the duty and responsibility of the media to provide a fair and balanced reporting of the candidates and related events. Sinclair has violated that trust and obligation to the American people. It is time that the FCC step in and correct a grievous corruption of power.
